RESEARCH INTERESTS

Analyzing multiple types of real-world health data (e.g., EHR, Claims, Patient generated data) to answer clinical questions, generate insights, and build predictive models using machine learning and natural language processing.

Development of methods and frameworks to evaluate and mitigate bias in AI for healthcare.

ACADEMIC BACKGROUND

Ph.D. Medical Informatics — 2015
Akdeniz University, Antalya, Turkey
Stanford University, Stanford, CA (Visiting Scholar) — 2012-2014

- Ph.D. research in clinical natural language processing and machine learning under direction of Prof. Daniel L. Rubin and Prof. Kemal Hakan Gulkesen.

Pre-doctoral Fellowship — 2008-2009
Developed Structured Radiology Report Templates for RSNA Radiology Reporting Initiative under direction of Prof. Charles E. Kahn.

M.Sc. Biostatistics and Medical Informatics — 2008
Akdeniz University, Antalya, Turkey

- *Focus areas:* electronic health records, personal health records, clinical decision support and usability evaluation.

B.Sc. Statistics — 2005
Dokuz Eylul University, Izmir, Turkey

EMPLOYMENT HISTORY

Senior Research/Data Scientist — 2022 - Present
Stanford University, Stanford, CA

- Advising and developing research plan of several grant applications for pain and palliative care group.
- Leading research projects for information extraction from clinical text.
- Pragmatic trials design for implementation of innovative healthcare delivery methods.

Consultant, Machine Learning — 2022 - Present
Flatiron Health, New York, NY (remote)

- Providing guidance on Natural Language Processing (NLP) and machine learning (ML) methods to generate real world data and evidence.
- Advising scientific strategic plan.

Manager, Senior Quantitative Scientist — 2021 - 2022
Flatiron Health, New York, NY (remote)

- Led a team of quantitative scientists on a highly cross-functional research and development initiative focusing on the application of machine learning and advanced statistical methods for real-world evidence generation and validation.

- Established a Scientific Advisory Board consisting of five leading academics to provide technical and foundational insights into our evaluation framework for ML-based data products.
- Led the creation of the annual Publication Strategy for machine learning research group.

Research Scientist/Lab Manager 2020 - 2021
Stanford University, Biomedical Informatics, Stanford, CA
- Led a team of postdoctoral scholars, graduate and undergraduate students in a research lab focused on analyzing EHR data and build machine learning models to solve clinical problems.
- Conducted research projects to assess and mitigate bias in machine learning applications developed to inform clinical decision making and improve health outcomes.
- Lead scientist and project manager on initiatives for, and in collaboration with, the FDA, AstraZeneca and Veteran Affairs.

Biomedical Informatician 2019 - 2020
Stanford University, Biomedical Informatics, Stanford, CA
- Leveraged electronic health records (EHRs) to identify and propose solutions for clinical questions and care delivery as related to patient health outcomes.
- Managed and manipulated research data sets, and applied statistical analyses to clinical and informatics-related research questions.
- Mentored interns to analyze patients medical data to resolve clinical questions.

Post-Doctoral Scholar 2018 - 2019
Stanford University, Biomedical Data Science, Stanford, CA
- Led research projects which transform noisy and massive EHR data into meaningful medical concepts that can be used to predict the risk of disease for an individual, or the response to a drug therapy.

Collaborating Faculty 2015 - 2017
Stanford University, Laboratory of Quantitative Imaging, Stanford, CA
- Contributed to research projects, mentored interns to develop real-time decision support driven by analysis of dictated radiology reports.

Lecturer 2015 - 2017
Akdeniz University, Department of Biostatistics and Medical Informatics, Turkey
- Principal investigator and lead scientist in medical informatics research projects, lecturer for undergraduate and graduate courses for medicine, dentistry and nursing departments.

Research and Teaching Assistant 2005 - 2015
Akdeniz University, Department of Biostatistics and Medical Informatics, Turkey

PROFESSIONAL ACTIVITIES *Awards and Fellowships*
- *National Title Award*, First ever Associate Professor of Health Informatics in Turkey, Government of Education, Turkey (2020)
- *Early-Career Research Fellowship*, Scientific and Technological Research Council of Turkey (2018)

- *National Academic Incentive Grant*, Highest score (100) in Nationwide Annual Evaluation, Council of Higher Education Turkey (2017)
- *International Doctoral Research Fellowship*, The Scientific and Technological Research Council of Turkey (TUBITAK), Program 2214 (March 2012 - March 2013)
- *International Pre-Doctoral Research Fellowship*, Akdeniz University Scientific Research Council, Turkey (Feb 2008 - Jan 2009)

Grants
- *Co-Investigator*   Pending
Title: SuPPO&RT Survivorship Project: Supporting Primary care Practice in Oncology & Realizing Teamwork. Source of Support: VA HSR&D
- *Co-Investigator*   Pending
Title: Improving Palliative Care for Seriously Ill Patients Facing Urological Surgeries. Source of Support: VA HSR&D
- *Co-Investigator*   Pending
Title: mHealth Promoting Access to Improve Cancer Experience (mPAICE) Source of Support: Stanford University, NIH
- *Principal Investigator*   2017-2018
Title: Development and Evaluation of a Prediction Model for Presence of Extrauterine Disease in Endometrial Cancer Patients: A Decision Curve Analysis Funding Source: Higher Education Institutions, Turkey.
- *Principal Investigator*   2016-2017
Title: Estimation of Obstructive Sleep Apnea Severity Using Additive Bayesian Networks. Funding Source: Akdeniz University Scientific Research Council, Turkey.

Activities
- *Invited Speaker* PharML 2022 Lung Cancer Survival Prediction Challenge, ECML-PKDD, Grenoble, France, 2022
- *Participant* in Women in AMIA Leadership Program, 2021 - 2022
- *Invited Speaker* Women in Data Science Istanbul, Turkey, 2021
- *Organizing Committee Member*, International Conference on Information Management and Big Data (SIMBig) 2020, 2021
- *Participant* EDUC 343C: Preparing for Faculty Careers, Stanford University 2019
- *Organizer and Speaker*, DDAMES: Data Divas for AI in Medicine, Monthly Workshop, Stanford University, 2019 - 2020
- *Secretary*, Turkish Medical Informatics Association (TurkMIA), 2016-2018
- Organizing Committee Secretary - 25th European Medical Informatics Conference - MIE2014
- *Project Member*, EU Framework 7 (FP7) Specific Program Marie Curie Actions, New Horizons Biomedical Informatics Observatories in Mediterranean Region (BIOMed) Grant Agreement Number: 318905 (Egypt, Jordan, Spain, Greece, Turkey), 2013

Service
- Reviewer for all the following proceedings and journals:
Journal of American Medical Informatics Association, BMC Medical Research Methodology, Journal of Medical Systems, BMC Medical Informatics and Decision Making, Computers in Biology and Medicine, BMC Medical Informatics

and Decision Making, JCO Clinical Cancer Informatics, MIE Conferences, AMIA Conferences

- *Guest Editor*, Special Issue: Natural Language Processing in Healthcare, Applied Sciences (ISSN 2076-3417), 2023
- *Guest Editor*, Special Issue: Artificial Intelligence and Data Science applied to Bioengineering, AIMS Bioengineering, 2021
- *Review Editor*, Frontiers in Artificial Intelligence, Frontiers in Big Data, Frontiers in Digital Health, 2021

TEACHING

- Introduction to Medical Informatics,   2016-2017
  Akdeniz University, Faculty of Medicine, Antalya, Turkey
- Biostatistics   2016-2017
  Akdeniz University, Faculty of Medicine, Antalya, Turkey
- Statistics for Scientific Research   2015-2016
  Akdeniz University, Faculty of Medicine, Antalya, Turkey
- Nursing Informatics   2015-2016
  Akdeniz University, Faculty of Medicine, Antalya, Turkey

STUDENT SUPERVISION

Name, Year(s)	Mentoring Focus	Role
Eliane Röösli MS (2020)	Fair, Unbiased and Generalizable Risk Prediction Models	Present: Consultant at McKinsey & Company Previous: MSc Student at Stanford and EPFL
Christopher Magnani, MD, MS (2020)	Statistical Methods & EHR data analysis	Present: Clinical Fellow at Harvard Previous: Medical Student at Stanford
Axel Moyal, MS (2020)	Clinical NLP Research EHR data analysis	Present: Senior Research Scientist at Upstart Previous: MSc Student at Stanford
Beril Erdogdu (2019)	Real-World Validation and Generalizability of a PSAk Prediction Tool for Active Surveillance Reclassification	Present: Ph.D. student at JHU Previous: Intern at Stanford, Student at Brown U.
Melih Yilmaz (2019)	Trajectory clustering and risk group classification of post-chemotherapy patient reported outcomes.	Present: Ph.D. student at UW Previous: Intern at Stanford, Student at Koc U.
Simon Hagege, MS (2019)	Learning with Limited Labeled EHR Data	Present: Quantitative Researcher at IMC Previous: MSc Student at Stanford
Sahithi Madireddy (2018)	Statistical Data Analysis, R, Principals of Scientific Research, EHR Data	Present: Student at MIT Previous: High School Student Intern at Stanford
